New England Pro Greens & Turf offers two varieties of traditional grass sod, Bluegrass Blend (60% Bluegrass/40% Fescue) and Tall Fescue. Both are ideal for installation in New England. Before you place an order for DIY installation, take advantage of our Square Footage Calculator and all of our How-To Guides. We have written instructions to help you prepare and measure your site, choose your grass, complete the install, and maintain your new lawn for the optimal results! If you find that you still have unanswered questions, or get stuck during any step in the process, we are only a phone call away.

Pricing includes delivery for quantities of 500 square feet and up within most of NH; additional charge for delivery may apply for far northern, western, or southwestern NH and locations other than NH. Any quantity less than 500 square feet must be picked up at our Franklin, NH location (availability varies, please call first).
